

TELTONIKA PANAMERICAN LITE PLAN

Built for the Americas. Designed for simplicity.

EXPANDING CONNECTIVITY IN THE AMERICAS

As a global IoT leader, Teltonika offers a tailored regional connectivity plan for the Americas – designed to streamline operations across North, Central, and South America. This flexible data plan focuses on region-specific needs, ensures multi-country coverage for local businesses, and enables seamless integration with all Teltonika tracking devices.

ONE SUPPLIER – END-TO-END SOLUTION

From hardware to connectivity, Teltonika provides unified IoT solutions – cutting the hassle of managing multiple suppliers, shipping complexity, and compatibility risks, while adding centralised support for the all-in-one Teltonika solution.

ALL-IN-ONE DEVICE READINESS

Choose Plug & Play simplicity with Teltonika devices featuring pre-inserted plastic SIMs or soldered eSIMs – factory-tested and ready to deploy.

SINGLE PAYMENT – 150 MB, 1 YEAR

One upfront cost for a full year of data – no surprises, no mid-term changes.

FACTORY SIM INSERT

We offer to insert plastic SIM cards or to solder eSIM chips, both Teltonika and/or provided by our customers, into Teltonika GPS trackers, delivering ready-to-use devices for your next telematics project.

CENTRALISED IOT PLATFORM

Manage all SIMs in one scalable dashboard within the IoT platform suitable for fleets of any size and type.

LOCAL COVERAGE – 16 COUNTRIES

Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, USA, Uruguay.

ACTIVATE ON DEMAND

Stock SIMs **without activation costs** almost indefinitely – deploy and connect only when needed. The PanAmerican Lite connectivity plan is not activated until a device is turned on and connected to the cellular network for the first time.

MULTI-OPERATOR RELIABILITY

Most countries offer more than one local carrier for uninterrupted service and the best signal strength.

AUTO TOP-UP

Teltonika tracking devices stay connected 24/7 with automatic plan renewal under the same terms. There's no need to monitor data volume, as the auto top-up feature simplifies SIM card maintenance, keeping GPS trackers online at all times.
